# GAIN OF 37.4% COULD SIGNAL BULL MARKET SAYS MILLIONAIRE INVESTOR

After achieving jaw-dropping returns of almost 40% over a recent 5 ½ month period, millionaire professional investor and author, Stephen Sutherland believes a new bull market may now be under way.

"In the past 5 ½ months our portfolios have made a gain of 37.4%," Sutherland confides. "When you bear in mind that the FTSE has only made a paltry 1.6% over the same time period there is every indication that a new bull market may have begun."

Sutherland isn't the only person to be making such recession busting gains, the clients who shadow invest him have also been making impressive returns.

"Since we have gotten into the same funds as Stephen my ISA is up 16%," recent recruit, Sam from Ballymoney writes, "My wife's ISA is up 14.75% over the same period. This is a phenomenal achievement considering the state of the global financial system currently."

Sutherland says that if a new bull market has begun investors need to make sure that they don't miss the boat. "Bearing in mind that in new bull markets the big money is always made in the first two years, you want to make sure that you are invested in the best of the best investment funds; funds that hold stocks where the really big money is flowing into," he advises.

Sutherland's new book *Liquid Millionaire* (£21.97 AuthorHouse), with the rather appropriate sub-heading, 'How to Make Millions from the Up and Coming Stock Market Boom' is full of advice on how investors can capitalise on what he claims could be a 'once in a life time opportunity'.

Stephen Sutherland is the UK's leading authority on ISA Trend Investing. Through his company, ISACO, clients get to shadow invest him, therefore, making the same returns as him. Stephen's clients include the original pioneer of health clubs in the UK, a leading authority in cosmetic, implant and restorative dentistry, a professional rugby player, a hedge fund manager and two serial property investors, who at the last count owned 150 properties between them.
